

# “Singing Souls”

“Singing Souls” is an *a cappella* choir of esoteric (inner-most) sound.

- Soul-full sound comes from the stillness of the inner heart
- We connect to this stillness and bring forth sound that has stillness and harmony as its core
- Self love takes us to our soul. Choosing to honour our voice and allowing ourselves to join with others in harmony
- Feel the yumminess of having your voice supported in harmony with others
- All songs are simply taught by ear, no piano, no music to read, no experience of singing necessary.
